

Seeds. Words that feed the future
PHOTOGRAPHY | Ed Kashi & Elisabetta Tola

A promotional poster for a live event. The background is a teal color. On the left, the word 'Seeds' is written in a large, white, serif font, with the tagline 'words that feed the future' in a smaller, white, lowercase font below it. In the center, there are two circular portraits: the left one shows Ed Kashi, an older man with a beard, and the right one shows Elisabetta Tola, a woman with blonde hair. Below the portraits, the text 'JOIN THE DIALOGUE, BE INSPIRED, GET INVOLVED!' is written in white, uppercase letters. Underneath each portrait is the name of the person: 'Ed Kashi' and 'Elisabetta Tola' in a white, italicized font. To the right of the portraits, there is a section titled 'Live on the CMCC channels' with icons for YouTube and Facebook, and the website addresses 'WWW.CMCC.IT' and 'WWW.CMCCAWARD.EU'. Further to the right, a clock icon is followed by the text 'May 18 - h 6 pm CEST'. On the far right, the word 'PHOTOGRAPHY' is written in a large, white, bold, sans-serif font, with the letters stacked vertically.

Live on the 
CMCC channels

WWW.CMCC.IT

WWW.CMCCAWARD.EU

A critically acclaimed, award-winning photojournalist, filmmaker, public speaker, and educator joins in dialogue with an outstanding science and data journalist.

Ed Kashi has been at the forefront of new approaches to visual storytelling for 40 years, documenting many of the social and geopolitical issues that define our times. His work has contributed to the success of [@EverydayClimateChange](#) .

Elisabetta Tola is a science communication expert, lecturer, and trainer who promotes a

scientific approach to journalism.

Through images and journalism the public embarks on a journey around the world and an open dialogue on how climate change is changing lives and how photography as a medium can improve and innovate climate change communication and contribute to the climate transition.

A live streaming [Seeds. Words that feed the future](#) event for the [CMCC Climate Change Communication Award “Rebecca Ballestra”](#);
